

AquiMax® Sprayable

Untreated

AquiMax Sprayable

University of California Riverside, 2022

Sprayable Moisture-Holding Polymer + Block Copolymer Surfactant

AquiMax® Sprayable contains Exacto's patented moisture-retaining polymer + block copolymer in a sprayable formulation with good tank mix compatibility.

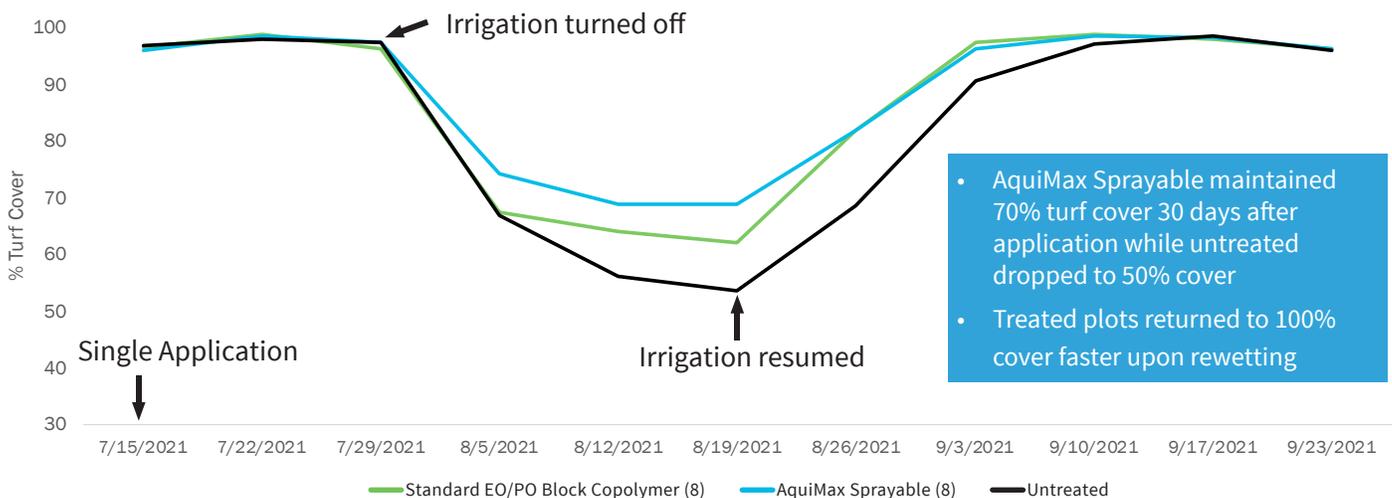

- Sprayable at all labeled rates with easy-to-use viscosity
- Compatible with a wide range of tank-mix partners

AquiMax Sprayable Extends % Turf cover Under Extreme Water Stress Conditions

University of California-Riverside
Study #1

Bermudagrass fairway

Use rates in parenthesis listed in oz/1000 sq. ft.

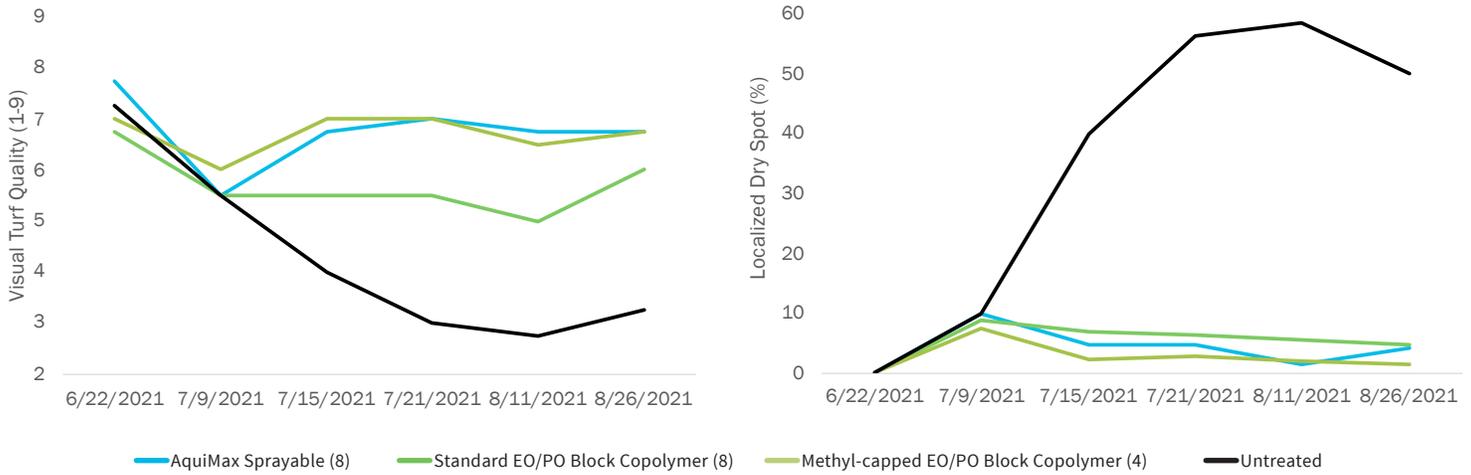

- AquiMax Sprayable maintained 70% turf cover 30 days after application while untreated dropped to 50% cover
- Treated plots returned to 100% cover faster upon rewetting

AquiMax Sprayable Maintained Turf Quality and Reduced LDS Under Extreme Water Stress Conditions

University of Wisconsin-Madison
 Creeping bentgrass putting green
 Irrigation turned off in June, turned back on in September
 Treatments applied monthly
 Use rates in parenthesis listed in oz/1000 sq. ft.

AquiMax Sprayable performed similarly or better vs. other types of block copolymer-based wetting agents

AquiMax Sprayable Performance

- Effective from 4-8 oz/1000 sq. ft.
 - Lower rate performs significantly better vs. competitive lawn care products
 - High rate performs on premium turf under extremely hydrophobic conditions

Directions for use

Application Rate: 4 to 8 oz/1000 sq. ft.

Reapplication Interval: 3-6 weeks

- Apply lower use rates preventatively before the onset of hydrophobic conditions.
- Apply higher use rates for curative applications when hydrophobic conditions are already present
